What sets Albion apart?

**PERSONAL:** We may be small but we do big things. We think the size of Albion is “just right.” It’s small enough to have engaging classes (average class size: 17) that allow for meaningful conversations and the opportunity for you to share your international perspective!

**PREPARATION:** College is great, but eventually you have to think about what to do after school. Most of our international students and Americans Living abroad go on to pursue graduate studies. Others return to their home countries with a greater sense of purpose or go directly into the workforce.

**EXPERIENCE:** Unique academic experiences are found at Albion – with our professional Institutes/Programs, the Albion Advantage, off-campus study, internships, and our student research program, our students engage in academic work that far surpasses most other undergraduate programs.
